EXPERIENCE

Hack At SITS Narhe-Pune 2022

As a UI/UX designer, I was responsible for designing and implementing the home page and editor page of Website Builder Project for HACK AT SITS. I also contributed to developing the editor's functionality, such as adding elements using document manipulation techniques.

Smart India Hackathon Pune 2023

Lead a team of five members which was assigned two problems: creating an e-portal to streamline case hearings and developing a mechanism to detect changes in human activity.
